PROFILE

Highly motivated and results-oriented software engineer passionate about front-end development using React. Proficient in HTML, CSS, and JavaScript, emphasizing creating responsive and user-friendly web applications. Skilled in leveraging APIs to integrate data and enhance the functionality of web applications. Committed to continuous learning and staying up-to-date with the latest industry trends and best practices.

WORK EXPERIENCE

Freelance Front-End Developer   **Feb. 2021-Present**

- Collaborated with a dynamic team on five projects spanning three years.
- Utilized Figma to craft intuitive and visually appealing user interfaces, ensuring seamless user experiences.
- Employed React to develop responsive and interactive front-end solutions, meeting project requirements and client expectations.

Freelance JavaScript Trainer   **May. 2022-June 2023**

- Designed and delivered customized JavaScript training sessions for individuals and small groups, catering to varying skill levels from beginner to advanced.
- Developed comprehensive lesson plans and instructional materials covering fundamental concepts, advanced techniques, and best practices in JavaScript programming.

EDUCATION

Bachelor in Informatics Engineering   **Dec. 2023**
Department of Software Engineering and Information Systems,   **Homs, Syria**
Al-Baath University

TOP PROJECTS

Sneak Peak, **E-commerce Platform for selling sneakers**

- Integrated various technologies including React, Axios, REST, MySQL, Stripe Payments, and JWT for enhanced functionality and security.

- Collaborated with another engineer to develop and launch an e-commerce platform, specializing in the sale of shoes.

Al-Wadi Medical Center, **Medical Center system** (Mobile application and Web application)

- Developed the front-end interface using Figma for design mockups, and leveraged advanced proficiency in React for the web application and Flutter for the mobile application, ensuring seamless user experiences across platforms.

- Worked with a team of 3 developers to build a comprehensive system for a medical center.
